

Raschel Knitting  
Machine

**SATYA GROUP**

SGRB-130 is the special model for making tubular mesh which is suitable for fruit packing bag, especially for small package at supermarkets and shopping centers. The advantage of SGRB-130 is high output, perfect yarn feeding system and flexible size adjustment. The same mesh but different size bags could be made at the same time.

Matching with slitting and extension machine  
The performance is higher than the traditional circular knitting machine.
